

Your Quilting Business

Schedule for 2009

Actual seminars and workshops will be selected closer to the retreat in order to provide you the most current information I can offer. More details about each workshop will be on the supply lists. Supply lists and other information about what to bring will be available by November 15.

You are welcome to bring UFO's and/or projects like shop samples that you would like to work on during the retreat. The other attendees and I are always willing to offer advice!

Be aware that *Shop Talk* will be embedded in *everything* we do, not just in the seminars. If you have a topic of particular interest to you, let me know when you register. I will try to fit in a discussion time to address it.
